PERSONAL STATEMENT

I'm a college student @ Princeton University pursuing a degree in Electrical and Computer Engineering. I'm a published first-author in F1000, with additional forthcoming research work from Baylor College of Medicine. I work as a mentor and a student ambassador at Wolfram Research's educational programs, and I've contributed functions to WolframLanguage (Mathematica).

EDUCATION

Princeton University **2026 - 2030**

- Pursuing a degree in Electrical and Computer Engineering with a minor in bioengineering

Cy-Fair High School **2022 - 2026**

EMPLOYMENT

Mentor at Wolfram Emerging Leaders Program 2026 **2026 - 2027**

- Working as a mentor at the Wolfram Emerging Leaders Program, guiding students through a yearlong research project

Mentor at Wolfram Summer Research Program 2026 **Summer 2026**

- Working as a mentor at the Wolfram Summer Research Program, living in residence with and guiding a small group of students through a three-week intensive research project

Mentor at Wolfram Emerging Leaders Program 2025 **2025 - 2026**

- Worked as a mentor at the Wolfram Emerging Leaders Program, guiding students through a yearlong research project

Teaching Assistant at Wolfram Summer Research Program **Summer 2025**

- Helped summer program students with computational research at WSRP'25

Tutor @ Kumon **2026**

- Tutored young students in mathematics and language
